

Your payment terminal as a top-up point for prepaid mobile phones

WL Mobile Vouchers

Increase your turnover without hassles or expenses. With WL Mobile Vouchers, you are connected with more than 3.5 million users of a prepaid card in Switzerland and you as a merchant benefit from an attractive commission.

Worldline offers you with WL Mobile Vouchers exclusively a attractive service that is free of charge: the sale of call credits for mobile phones via your payment terminal.

Users of prepaid mobile phones can load their call credits easily and everywhere without scratch calls – at the cashier in stores, newsagents, restaurants, refueling stations or even at the discotheque.

With WL Mobile Vouchers you profit from a welcome added source of revenue, because for each call credit purchased we credit you up to CHF 5. This supplemental service can help you finance your payment terminal.

“30 FRANCS FOR MY MOBILE PHONE PLEASE”

Around 3.5 million people, or over 40 per cent, of all mobile phone users in Switzerland, have prepaid mobile phones. More than 1.2 billion francs of call credits are loaded on these phones each year. This has long been done using scratch

cards – but now with WL Mobile Vouchers it can be done directly through your payment terminal. Soon you will also hear at the cashier: “. . . and 30 francs top-up as well please.”

WL MOBILE VOUCHERS AT A GLANCE

WL Mobile Vouchers replaces the scratch card for prepaid mobile phones. It offers advantages for both the sales outlet and the customer:

- Attractive commission for you
- Additional turnover without extra administrative work or cost
- No prefinancing of call credits
- No physical storage and thus no risk of theft
- No additional terminal needed to process call credits

LEBARA

WL Mobile Vouchers at a glance

HERE'S HOW IT WORKS

Enter the amount to be loaded in your payment terminal along with the telecom provider. It will automatically generate the Mobile Voucher with the code used to activate the call credits. Customers pay for the voucher along with their other purchases, with either a card or cash. We take care of the billing with the telecom company. The credits sold will be charged to your corresponding account and settled along with the card turnover. At the same time we will credit you with the commissions you have earned.

NO COSTS, NO EFFORT

This means you need not maintain a supply of scratch cards for the various telecom providers, nor prefinance the call credits, nor set up an additional payment terminal.

WL MOBILE VOUCHERS – FOR YOU TOO

Regardless of the sector in which you do business – WL Mobile Vouchers is available to all Worldline merchants. The only thing you need is an ep2-compatible payment terminal from Worldline. We will be happy to make you an inexpensive purchase or rental offer.

OUR OFFER – SIMPLE AND FREE OF CHARGE

Request the free activation of WL Mobile Vouchers. Along with the activation you will receive a special starter kit with all the necessary information and advertising material (stickers for the entrance area as well as POS materials).
