DAVINCI III VENDING

Reliable payments for vending machines

The ideal terminal for internal and external use and payments at unattendend points of sale.

Paying for tickets, parking tickets and other services at vending machines has never been so easy and so secure. davinci III Vending is weather-resistant and extremely robust and is therefore ideal for payments at petrol stations as well as for park and card vending machines.

The combination of pinpad (keypad), slot reader and contactless reader is customer-friendly to use and enables fast contactless payment and payments with chip.

IDEAL FOR INTERNAL AND EXTERNAL USE

davinci III Vending is a secure and reliable solution for vending machines:
- High-end terminal for unattended points of sale
- Latest PCI PTS 5.x security standard
- Reliable and robust
- Contactless payments for even faster payment
- Protection against vandalism
- Same dimensions as with the previous model, no adaptation required
- Acceptance of petrol cards
