

The most important YOMANI/davinci functions

Quick guide

PURCHASE

1	Push the <1> button. "Purchase" is activated.	1: Purchase
2	Enter the amount and confirm with <OK>. The amount is separated (e.g. euros/cents) with a period. Amounts less than "1" are registered with a "0." at the beginning.	<Amount> 
3	Depending on the card type, it must be inserted in the chip card reader, held up to the contactless reader ¹ or pulled through the magnetic swipe reader. If the customer uses the wrong reader for his or her card, that person is instructed to use the proper reader. ¹ davinci: The contactless reader is located near the payment terminal display.	
4	The amount is displayed for the customer to read. When using a card with an associated PIN, the customer is instructed to enter the PIN code (4 to 6 digits) and confirm with <OK>. When using a card without a PIN, only the amount must be confirmed. Generally, customers do not need to do anything further for a contactless payment of a small amount. The transaction can be interrupted by pressing <STOP>. Timeout: If a transaction is not concluded within 30 seconds, the process is aborted.	<PIN> 
5	Payments are processed and, when appropriate, authorised online. Chip cards: The card must remain inserted in the chip reader during the transaction until the instructions appear to remove the card.	
6	Receipt is printed out. Please follow the terminal's instructions: If the customer's signature is necessary, request that he or she provide one.	
7	To print a copy of the receipt: Push the <1> button. To not print a copy of the receipt: Push the <2> button. If no button is pushed, a copy is automatically printed after 10 seconds.	1: Copy or 2: No copy

REVERSAL/CANCELLATION

With this function, the **last transaction** that was carried out is cancelled.

1	Push the <3> button. "Cancellation" is activated.	3: Cancellation
2	Enter the terminal's password and confirm with <OK>. (For the password, see the configuration sheet.)	<Password> 
3	The amount of the previous transaction is displayed, and confirm it with <OK>.	
4	Cancellation is processed and, when appropriate, authorised online.	
5	Receipt is printed out.	
6	To print a copy of the receipt: Push the <1> button. To not print a copy of the receipt: Push the <2> button. If no button is pushed, a copy is automatically printed after 10 seconds.	1: Copy or 2: No copy

CREDIT (REFUND)

If a transaction can no longer be cancelled (see "Cancellation"), a credit can be issued.

1	Push the <4> button. "Credit" is activated.	4: Credit
2	Enter the terminal's password and confirm with <OK>.	<Password> 
3	Enter the amount and confirm with <OK>. The amount is separated (e.g. euros/cents) with a period. Amounts less than "1" are registered with a "0." at the beginning.	<Amount> 
4	Only if the DCC function is activated: Enter the date of the original transaction and confirm with <OK>.	<Date> 
5	The amount is shown and the card requested.	
6	Depending on the card type, it must be inserted in the chip card reader, held up to the contactless reader ¹ or pulled through the magnetic swipe reader. ¹ davinci: The contactless reader is located near the payment terminal display.	
7	The cashier signs the receipt as a confirmation.	

DAILY SETTLEMENT (CLOSE-OUT)

During the daily settlement, all processed transactions are delivered and closed out. During the daily settlement, all amounts are credited. A daily settlement should be performed at least once a day – the best time is after the store has closed. The daily and shift counters are set to "0". During the shift handover, you can determine which transactions were carried out during this period (shift). The shift handover is provided strictly for information purposes and **does not replace a daily settlement**.

TIPS!

- Software updates take place at night and only when shifts are closed. Therefore, do not open a new shift in the evening after the daily closing is complete.
- After an "end of shift", cancellations can no longer be carried out.

Use the <STOP> button to get to the terminal's main menu.
Select Function <2> Balances and afterwards <3> Daily closing.

<STOP> <2> <3>

ENQUIRIES AND SETTINGS

Enquiries (journal)

Use the <STOP> button to get to the terminal's main menu. Select the function <3> Queries.
