

Saturn 1000P Pinpad

The integrated Android terminal for the best customer experience.

Offer your customers a reliable and convenient way to pay with the Saturn 1000P. This POS-integrated terminal impresses with its smooth and fast transactions as well as its ergonomic design, large touch display and handy physical keypad.

Accept all commonly used credit and debit cards, as well as mobile payment solutions via your integrated Android terminal.

Services such as tips, dynamic currency conversion (DCC) and much more make the Saturn 1000P the key asset for your business.

Practical design for enhanced experience:

- Future-proof terminal with Android interface
- Can be integrated into any checkout infrastructure
- Touchscreen for more user-friendliness
- Value-added solutions such as dynamic currency conversion (DCC) available
- Fast payments with the contactless function and QR code
- Certified with latest PCI PTS 6.x security standard
